VETERINARY CLINIC
We supply one stop shop
solutions for pet clinic

COMPANY INTRODUCION

HAGURIM SHEL EYAL GROUP LTD specialize in Veterinary Clinic Solutions such as Pet cages, Pet operating tables, Pet grooming tables, Examination tables, Mobile trolleys, Pet care rooms (drying devices), Pet incubators, Veterinary X-ray systems.

The factory was established in 2017, and has workshops that occupy a total of 1000 square meters.

Our pet cages achieved fully automatic production lines, with a production of over 10,000 units.

HAGURIM SHEL EYAL GROUP LTD is committed to production from all of its heart. HAGURIM SHEL EYAL GROUP LTD supply the best products and services for every single customer.

Pet Cage	Pet Operating Table	Pet Grooming Table
SS Exam Table	Pet Bath Sink	Medical Trolley
Veterinary Digital X-Ray System	Pet Bath Sink	Medical Trolley

PC-1

Combined stainless steel fostering cage (inpatient) cage

Material: 304 stainless steel, thickness: l.2mm
optional accessory: oxygen gate

The lower level cage is designed for pumping plate, and the pumping plate can be drawn out into a large cage.,bottom moving brake wheel, mute, wear-resistant, easy to shift and fixed. can be customized according to demand.

The out size:1220*7001*5 70mm, the upper cage:6 10*610*700mm; the uder cage:610*820*700mm;dirte ceivingb asin:690*5404*5 mm; pedal mesh:690*545*10mm;the uppercage door:530*480*8mm; the uder cage door: 530*690*8mm; Packing size :1300*830*1760-l.9m;GW: 187kg

PC-2

Inpatient oxygen chamber cage power supply

Material:304 stainless steel, thickness: l.2mm

Out size: 1220*700*1570mm; upper cage: 550*610*700mm; uder cage: 610*820*700mm: dirt receiving basin: 687*540* 45mm;Pedal mesh: 687*545*10mm;upper cage door: 470* 480*8mm; uder cage door: 530*690*8mm

Packing size: 1300*830*l760=1.9m3, GW: 220kg, can be customized according to demand.

PC-3

Inpatient oxygen chamber cage power supply

Material:304 stainless steel, thickness:l.2mm

Out size: 1220*700*1570mm;. upper cage: 550*610*700mm; uder cage: 610*820*700mm; dirt receiving basin: 687*540* 45mm, Pedal mesh: 470*545* 10mm; upper cage door:470* 480*8mm;uder cage door: 530*690*8mm

Equipped with oxygen cabin door,16 bit power interface, oxygen hole, dry and wet temperature display, leakage protection.

Packing size: 1300*830*1760=1.9m3 GW: 222kg

PC-4

Vet cages for cats

Material: 304 stainless steel, thickness: l.2mm

Out size: 1000*650*1760mm; upper cage: 1000*810*650mm· uder cage: 1000*810*650mm; cat springooard: 580*250*10mm: 4 left cage door: 670*750*8mm; right cage door: 270*750*8mm '

Packing size :1070*780* 1920=1.6m3 GW: 180kg

PC-13

Stainless steel
pet oxygen cage

The box is made of 304 stainless steel.
the back is equipped with an exhaust outlet.
the door is made of transparent plexiglass and equipped with an adjustable ventilation hole. It is equipped with a dry and wet thermometer and an oxygen connection hole. the door is automatically locked, it is safe and convenient with the stainless steel grid and movable plate.

Size:610*700*610-1410m m;packi ngsize:850*800*890-0.6m³ / 1485*880*925=1.2lm³, GW:L 143KG

PC-14

Stainless steel
pet oxygen cage

The box is made of 304 stainless steel.
the back is equipped with an exhaust outlet.
the door is made of transparent plexiglass and equipped with an adjustable ventilation hole.It is equipped with a dry and wet thermometer and an oxygen connection hole. the door is automatically locked, it is safe and convenient with the stainless steel grid and movable plate.

Size:610*700*610-1410mm

PC-15

Combined stainless
steel fostering cage
(inpatient) cage

Made of high-strength solid 304 stainless round steel, the upper pressure mesh can be moved up and down flexibly, which can clamp large and fierce dogs effevtively, and it is very convenient for injection inspection. there is no need to worry about being bitten by a dog. there are doors and automatic locks on both sides of the cage to secure the safety.

Size: Small:700*360*500mm; Large:970*420*680mm; extra large: 1200*460*780mm; packing size:extra largel350*640*1010=87m³, gw96kg M:1130*600*930=0.63m³ gw80KG

PC-16

Stainless steel
square tube pet cage

The square tube cage can be designed assembly, automatic lock with cage door, novel design and easy to use! Made of 304 stainless steel, the thickness of the square fube of the cage frame is 1.2mm, and the thickness of the string tube is 1.0mm. It is equipped with a stainless steel pedal and a stainless steel plate. It is very convenient to move and fix with the active brake wheels.
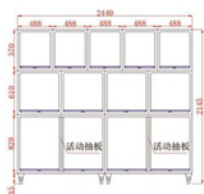

Size: 1200*800*1050mm, customize as required

PC-17

Treatment Table
with Cage

The top of the cage is covered with a 304 stainless steel cover, around is made of stainless steel bars and is not easily deformed. The desktop is about 4CM wider than the cage, which is convenient to use as a treatment table. It can bear weight and can be produced on demand!

Size: 800*500*800mm

PC-19

Stainless steel
pet hospital cage

Width 2440mm, the third layer of 5 grids each about488mm width

Total depth of pet carrier 700mm

Total height 2145mm, wheel height: 145mm
the first layer of four grids each height: 820mm
the second layer of four grids each height: 610mm
the third layer of five grids each height: 570mm

PC-18

Stainless steel
folding cage

The bottom of the cage is equipped with 2 movable tray, easy to clean,anti-skid universal wheel with brake

Size: 95*65*70cm, size/material can be customized

PC-23

**304 stainless steel cage**

1200*600*800MM 304 stainless steel

POT-25

Dental Large hinge operating bed Machine

304 Thickened countertops, Change the traditional thrust mode, Equipped with new electro-hydraulic push rods

Table temperature is adjusted as required

Room temperature - about 40°, Note: It can not work after 20 minutes of cooling and preheating)

POT-1

DWV-II type vet operation table

The animal operating table consists of three parts: table top,pin, and base. It is equipped with a surgical instrument tray and an infusion stand.; The middle of table board has a sink; The right-and-left tilt is-5°/15° The fore-and-aft tilt is 45°, The material is 304 Stainless steel Temperature adjustment range 0-60 degrees, automatic thermostat function, freely adjust the requirecftemperature; Built-in high temperature protector, safe and reliable

Size: 1400*650*760-1060mm, packing size:1475*735*955=1.04m, GW154kg

POT-2

Stainless steel constant temperature bi-directional tilt lift operating table

Stainless steel thermostatic bi-directional tilting lifting table temperature between 0-60 degrees. automatic thermostat function. The temperature can be freely adjusted, built-in high temperature protection, safe and reliable. The countertop is made of high quality 304 stainless steel and is equipped with stainless steel mesh. Bindind artifacts on both sides. Simple and solid, convenient and practical, touch lift switch, easy, to operate, with binding artifacts on both sides, simple and secure, The operating table is made of high-quality 304 stainless steel and the entire equipment never rusts.

Size: 1500*600*760-1050mm, packing size:1600*700*940=1.05m³

POT-3

Electric animal operating table

The lifting of the working table adopts electric system, with a sink in the middle;The left and right side of the working table can be tilted 0-15° respectively, using mechanical manual operation;The front and back of the worktaole can be tilted 0-45 degrees, using manual operation;The whole machine adopts stainless steel, hign temperature resistance, anti-corrosion, anti-rust; Working table temperature adjustment range: 0°C-50°C, power on before work, set the required temperature, preheatig 20 minutes can work;

Size: 1400*650*760-960mm

Table with constant temperature system, with electric lifting system (switch pedal, one key control up, lone key control down) ,Countertops can be tilted left and right, or folded back and forth

Table and base materials are optional

POT-4

Hydraulic animal operating table

Hvdraulic svstem is adopted to lift the working table, with a sink in the middle: The left and right side of the working table can be tilted 0-15° respectively, using mechanical manual operation; The front and back of the work table can be tilted 0-45 degrees, using manual operation; The base adopts A3 steel plate computer baking paint to prepare pulley, Standard grid

Standard grid; The table can be tilted left and right, and can be folded before and after

Size: 1400*650*820-930mm ,Function optional

7

HAGURIM SHEL EYAL
medical equipment

POT-5

C arm operating table

The main body of the operating table is made of 304 stainless steel and the bed plate is made of phenolic laminated paperboard, which has the characteristics of uniform density and good X-ray transmittance.

Size: 1500*600*760-1050mm

The operating table can be tilted 45° in front and back respectively. It is electrically operated and weigh's 40kg on one side.

POT-6

Electric lifting console

High precision temperature control, materials 304 stainless steel

Size: 140*60*(58-116)cm

Optional materials / size, Gross / Net weight: 100kg

POT-7

Multi functions pet treatment table

The material is 304 Stainless steel Use a diameter of 8mm for the keel, and a crossbeam with a 4mm diameter spot weld.

Adopt full circular bead without blind angle, easily clean stainless steel water faucet with two kinds of water to easily use ,the table board has the active mesh, 3 drawers and 1 cabinet

Size: 1400*600*880mm, Packing size 1475*670*1050=1.04m³, GW 125kg

POT-8

Wooden frame wet disposal table

Body part wood, Table surface: 304 stainless steel, Grid is made of 8mm diameter main frame, and 4mm diameter horizontal rod, cross spot welding.

The surface of the disposal platformis made of all round fillets without any blind angle. The cleaning is convenient. The water leakage is made of stainless steel filter wool and water will not be blocked. Equipped with stainless steel retractable water tap. 2 water outlet modes are easy to use. it can be washed at far and close distance, and the drawer sliding rails adopts stainless steel thick guide rail. With a cabinet, and three drawers.

Size: 1400*600*880mm, Packing size 1475*670*1050=1.04m³

POT-9

Wooden frame dry type treatment table

Body part: wood, Table surface: marble

The surface of the disposal platform is made of marble, smooth and clean and the cleaning of the drawer is convenient. The drawer sliding rail is made of stainless steel thick guide rail. With a cabinet, three drawers

Size: 1400*600*880mm, packing size 1475*670*1050=1.04m³, GW: 134kg

POT-10

Stainless steel vet ot table

The operating table is made of high quality 304 stainless steel. It is equipped with stainless steel movable mesh. it can have flat screen and circular arc mesh. It adopts a slanting lift support. It is stable and stable. It is equipped with a touch type lifting switch. The operation is simple and the whole equipment never rusts.

Size: 1300*600*450-1000mm, package size: 1580*690*550=0.6m³, GW: 89kg

HAGURIM SHEL EYAL
medical equipment

POT-11

Stainless steel pet operating table (thermostat)

All stainless steel V constant temperature operating table temperature between 0-60 degrees. automatic constant temperature function, can adjust the required temperature at will, equipped with leakage protector, high temperature protector, the use of safety, high quality 304 stainless steel table. with stainless steel movable mesh, can have flat net and circular arc screen selection use inclined support lifting support, liter Stable, lock firmly, with touch type lifting switch, easy to operate, the whole equipment will never rust

Size:1300*600*450-1000mm, packing size: 1580*690*550=0.6m³, GW: 90kg

POT-12

Stainless steel single side tilt table

Made of high quality 304 stainless steel, equipped with stainless steel movable mesh, can have flat net and circular arc screen selection, use oblique bracing support, angle adjustment, smooth lifting, lock firm, with touch-lift switch, easy operation, and the whole equipment never rust.

Size: 1300*600*450-1000mm, packing size:1580*690*550=0.6m³, GW: 90kg

POT-13

Electric pet grooming table

Electric controlled grooming table. 25cm lowest height. water proof fiber table top. foot pedal controller, Hair dryer hooks, China most famous brand "jiecang" Motor

Size: 1250*650*250*950mm

POT-14

Stainless steel treatment table with acrylic countertops

The main acrylic lift table is made of 304 wire drawing board, detachable acrylic table, electric lift, smooth lifting, universal brake wheel (optional fixed fine tuning feet)

Electric lift, durable, removable acrylic countertops

Size:120*600*500-1000mm, packing size 1375*690*565=0.5m³, qw: 78kg

POT-15

Surgery table

This table is specially designed for large or heavy animals. Like horses, cows. the whole table is made of quality 304 stainlesss teel, loading capacity: 400KG table top tilting (front & back) is adjustable from 0-45° by manual control. the height is adjustable by electric control, with drainage in the middle of the table top. with castor wheels.

Size: 1750*860*340/890mm

POT-16

Dissecting table

304 stainless steel

Size: 690*300*100mm, small 1100*550*800mm, sizes are customizable upon request.

9

POT-17

Electric Pet Operating Table

PLVOT-002 is electric pet operating table, The movements of up and down, trendlenburg, lateral tilt are electric controlled tabletop "V" shape is manual controlled. The table material is all stainless steel 304.

Table top consists of 2 plates

Both the table plates can tilt 45°, manual controlled

Length 1400mm, Width 650mm, Height 760-1060mm, Table Top Tilt 15°, Plate Tilt 45°, Load Capacity 250kg

POT-18

Pet Treatment Table

The pet treatment table top adopts a concave rounded design, which is more convenient for cleaning with a water outlet, which can be used for pet cleaning, built-in towel rack and trash can. The drawer slides in the cabinet are made of stainless steel thick rails.

Size: 1400*650*850mm

POT-19

POT stainless steel flat panel treatment table

304 stainless steel material, electric lift, full rounded corners, smooth

Size: 1300*600*450-1000mm, packing size 1575*690*555=0.6m³ gw: 80kg

POT-20

Stainless steel pet weighing treatment table

The materials: 304 stainless steel, weighing, diagnosis, treatment, and disposal of multi functional tables.

Size: 1000*550*800mm, packing size: 1070*620*960=0.64m³

POT-21

Stainless steel constant-temperature treatment table

304 stainless steel, Worktable temperature adjustment range between 0-60 degrees, constant temperature, The desired temperature can be adjusted as desired, Built-in high temperature protector, Safe and reliable, the table is flat, with a sink and sewage plate, easy to clean, optional infusion pump.

Size: 920*520*840mm, Packing size: 1080*595*980=0.63m³, GW: 60kg

POT-22

Stainless steel simple infusion station

Made of 304 stainless steel, the thickness of the table is 1.2mm, the thickness of the lower plate is 1.0mm, the column is 30*30 square tube, thickness 1.2mm, the table is equipped with railings, brake wheel or adjusting foot is optional.

Big Size: 1100*600*800mm, Small Size: 900*500*800mm.
Packing size: 1180*670*990=0.78m³, GW: 64kg

HAGURIM SHEL EYAL
medical equipment

POT-23

Stainless steel
acrylic baffle infusion table

The whole 304 stainless steel material is corrosion resistant, acid proof and stainless steel. The acrylic baffle is more high-grade and has good isolation and mute effect with high strength acrylic baffle on both sides. It can be arranged in a row

Large: 1100*550*800mm, Small: 900*500*800mm

POT-24

Stainless steel
pet weighing
treatment table

The whole material is 304 stainless steel, anti-corrosion, anti-acid and no rust, mobile pulley movable table with moving brake wheel

The table is flat acrylic plate, the column is 304 stainless steel, no rust, silent moving brake wheel! ,Removable table, push lift
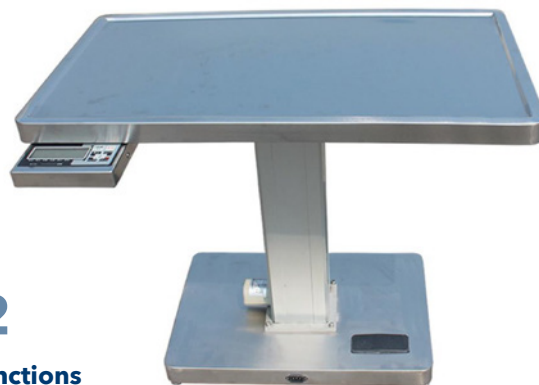

Size: 1360*600mm *850mm

TT-1

stainless steel new
design column
diagnosis and treatment table

304 stainless steel, the table surface is smooth, all around is polished decoration, the bottom is equipped with binding brackets, heavier base is with fine-tuning feet.

Large size: 1100*600*800mm, small size: 900*500*800mm,

970*570*960=0.53m³. Small gross weight: 50kg

TT-2

Multi-functions
electric lifting
treatment table with scale

The surface is with concaved round corner, easy to clean: the height adjustment is controlled by electronic pedal, and it is easy to use: equipped with high precision electronic scale core it can be used in pet diagnosis and treatment, treatment of trauma, reception, weighing and so on.

Size: 900*500*750-1050mm, Packing size: 975*575*900=0.5m³. GW: 77kg

TT-3

Multi-functions
electric lifting
treatment table

The surface is composed of square tube bracket, detachable pallet and mesh, convenient to be cleaned. the height adjustment is controlled by electric pedal, and it is easy to use, water leaking uses stainless steel filter, will not be blocked. it can be used to wash pet teeth, deal with trauma, and receive medical treatment.

Size: 1200*600*750-1050mm, Packing size: 1285*685*900. 86KG
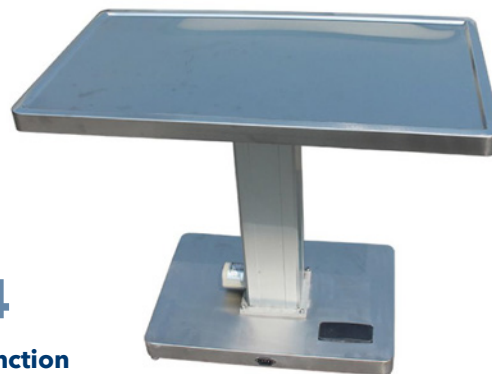

TT-4

Multi-function
electric lift
diagnosis and treatment table

The surface is with concaved round corner, easy to clean: the height adjustment is controlled by electric pedal, and it is easy to use; it can be used in pet diagnosis and treatment, treatment of trauma, reception and so on.

Size: 900*500*750-1050mm

BET-10

Pet grooming table on wheels

Dog lead on wheels, The suspender rod is 201 stainless steel with adjustable height and uniform wall thickness of 1.0mm. The boom is equipped with a braided rope, which is 50cm in length, for the convenience of fixing pets.

Size: 90*60*76cm, packing size: 92*62*12cm, GW 17KG / NW 15.5KG

BET-11

Stainless steel pet bath without door

108*60*(20-95) cm or 120*60*(20-95) cm.

Two sizes, the desktop is 1.8CM density board anti-slip anti-static rubber leather stainless steel boom, the support is iron spray plastic. The meniscus boom

BET-12

Pneumatic lifting beauty table

Product size: 60*(70-104) cm, Package size: 69cm*20cm*63cm
Gross / net weight: 16.5kg / 18.5kg

The desktop is 1.8cm density board,equipped with nylon jig and folding derrick, the vertical rod is 74cm long and the transverse rod is 36cm long; The boom is 201 stainless steel

Customizable stainless steel base; Optional: square desktop, gantry boom.

BET-13

Pneumatic lifting beauty table

Product size: 60*(70-104) cm, Package size: 69cm*20cm*63cm
Gross / net weight: 16.5kg / 18.5kg

The desktop is 1.8cm density board,equipped with nylon jig and folding derrick, the vertical rod is 74cm long and the transverse rod is 36cm long; The boom is 201 stainless steel

Customizable stainless steel base; Optional: square desktop, gantry boom.

HAGURIM SHEL EYAL
medical equipment

PS-1

Stainless steel pet bath without door

The material is 304 Stainless steel Thickness is 1.2mm with nonslip foot not mate use 2 inch anti-block water, and equipped with multi-funcional high pressure flushing and adjustable hot and cold water control faucets

High-pressure water leak proof anti-blocking, we can customize the size as your requirements

Size: 1300*740*900-1300mm. packing size: 1380*810*740=0.83m³ GW: 99kg

PS-2

Stainless steel pet sliding door bath sink

The material is 304 Stainless steel, thickness is 1.2mm, provide skid proof foot gauze pad 7.6cm anti-blocking and leak proof, Provide mufti-functional tap with high pressure and can be adjusted hot and cold water

Size: 1300*740*900 / 1300mm, packing size: 1380*810*740=0.83m³ GW: 99kg

PS-3

Stainlesss teel pet pedal bath sink with hair drier machine and movable door

The material is 304 Stainless steel, thickness is 1.2mm provide skid proof foot gauze pad 7.6cm anti-blocking and leak proof, provide multi-functional tap with high pressure and can be adjusted hot and cold water

Size: 1300*740*900 / 1300mm, packing size: 1380*810*740=0.83m³ GW: 105kg

PS-4

Full stainless steel electric lifting pet bath sink

The material is 304 stainless steel thickness is 1.2mm, with electric controller switch to automatic adjustment of table Provide multifunctional tap with high pressure and can be adjusted hot and cold water,thus sink is very suitable for pet clinic

Size: 1300*740*1170-1600mm, packing size: 1375*810*975-1.09m³ GW 118kg. And we can customize the size as your requirements

High-pressure water, leak proof, anti-blocking Never rust.

PS-6

Electric lift plastic bathtub

Plastic tub, plastic sprayed steel frame,there's a non-slip pattern on the bottom of the tub,electric lifting mode,thickness is 5cm, optional colors

Size: 149*73*78-128cm, packing size: 135*72*70cm, GW80 KG, bearing capacity less than 100kg

PS-5

Stainless steel surfing bath sink

The material: 304 stainless steel; thickness: 1.2mm

Size: LHW: (1.900*740*900 / 1300mm; 2.1100*740*900 / 1300mm; 3.1300*740*900 / 1300mm) Small packaging: 1180*810*1055 120KG

With spa function stainless steel bathtub, three sizes are optional. equipped with control knobs operators can control the strength and timing of water flow bubbles. The auxiliary hot air function helps maintain the original water temperature. This bathtub is well sealed and can be used for pet medical baths The bottom adjustment screw can be placed smoothly

PS-7

Full stainless steel electric lifting pet bath sink

The whole 304 stainless steel is made durable, no rust, and three sides to prevent water from splashing. full fillet design, easy to clean, filter wool and water to prevent clogging.

Size: 620*500*800 / 1100mm

HAGURIM SHEL EYAL
medical equipment

PS-8

Inpatient caged wash tank

304 stainless steel material pet cage is designed for tray washing. It can wash the pet cage tray into the sink easily and quickly. It is also equipped with high pressure water gun for easy use.

Size: 620*500*800mm

PS-9

Stainless steel flume

304 stainless steel material, pet cage is designed for tray washing. It can wash the pet cage tray into the sink easily and quickly. It is also equipped with high pressure water gun for easy use.

Size: 620*500*800mm

PS-10

Advanced computer edition bathtub with drying box

Hardware + waterfall + water inlet + hand-held shower + anti-jumping ring + computerversion control + bubble bath + colorful lamp + ozone (turn off ozone with high power)

Outside diameter: 65*60*95cm, inside diameter: 57*38*43cm, 0.55m³ / GW 30KG

Optional color: black and white and pure white

PS-11

Advanced computer edition bathtub with drying box

Common faucet +hardware +water column inlet + hand-helds shower + anti-jumping ring + computer version control + bubble bath + surfing massage + colorful lamp + ozone (turn off ozone with high power)

Outside diameter: 75*65*100cm, inside diameter: 60*45*40 cm, 0.7m / GW 35KG

Optional color: black and white, pure white and yellow

PS-12

Advanced computer edition bathtub with drying box

Hardware + waterfall water + hand-held shower + anti-jumping ring + computer version control + bubble bath + surfing massage + colorful lamp + ozone (turn off ozone with high power)

Outside diameter: 90*68*95cm, inside diameter: 76*53*58cm, 0.8m³ GW 40KG

Optional color: black, white and yellow

PS-13

Advanced computer edition bathtub with drying box

Hardware + waterfall water + hand-held shower + anti-jumping ring + computer version control + bubble bath + surfing massage + colorful lamp + ozone (turn off ozone with high power)

Outer diameter: 120*73*95 cm, inner diameter: 98*62*58 cm, 1.1m³ GW 50KG

Optional color: black and white and pure white

B-1

Pet Stainless Steel Stretcher

Main material is 304 stainless steel, thick cloth. DIY design, dismantling combination is more convenient

Size: 1200*550mm

S-5

Pet super thin electronic gound weighing machine

4 scale cores design, multi-point sensor digital display, weighing machine standard, super large plane, more convenient for weighing large dogs ,the display confirms the weight intelligently and the weight of the pets is more flexible. it is made of high quality 304 stainless steel, weighing range is 0-150 kg, 304 stainless steel

Size: 1200*600*65mm, Packing size: 1270*675*230=0.2m³ ,GW 48kg

HAGURIM SHEL EYAL
medical equipment

B-2

Stainless steel pet operation auxiliary vehicle

The whole 304 stainless steel material is corrosion resistant, acid proof and rusty. It is convenient, easy to use, safe and hygienic, and can be customized.

Equipped with universal brake, the Luntai fence is equipped with drawer for multilevel placement.

Size: L700mm*W450mm*H800mm, Packing size 835*570*1010=0.48m³
GW: 46kg

B-3

Stainless steel pet holder

Using 25*25 stainless steel 304 square tube as the skeleton, and the laminate is made of 1.0mm 304 stainless steel plate, and the pet is fixed with an active cotton gauze which can protect the pet from damage.

Size: large 800*500*800mm, Small: 600*450*800mm

B-4

Stainless steel lifting operation auxiliary table

304 stainless steel,the lifting function and the rolling universal brake wheel are simple, practical and not rusty, the utility excess for the operating table is used.

Size: 880*500*850-1400mm

B-5

Stainless steel pet ultrasound table

8 pcs nickle stainless steel, easy to clean, not easy to rust

Special used stainless steel pet ultrasound table for ultrasound machine use, targeted design according to practical needs, more accord with practical case, the edge treatment is round and smooth, size can be customized, and equipped with full-directional brake wheels, convenient to be moved.

Size: 1100*550*700mm, Packing size 1170*620*860=0.62m³
GW: 45kg

B-6

Multi-layer equipment load-bearing cart with socket

The main body is made of 304 stainless steel. The socket is protected against leakage and is safe to use. universal brake or fixed foot at the bottom.

With its own socket, easy to use, large space for equipment, durable, pet hospital essential

Size: L600*W650*1595mm, Packing size: 1655*725*760=0.91m³, GW: 87kg

B-7

Stainless steel multi-layer equipment load-bearing cart

The main body is made of 304 stainless steel. The universal brake wheel or fixed adjustment foot is optional on the bottom

A large space, durable, pet hospital essential

Size: 545*455*1150mm

HAGURIM SHEL EYAL
medical equipment

B-8
Stainless steel corner pet examination station

304 stainless steel material, flexible collocation and can be customized.

Size: 1100*520*770mm / 650*300*770mm

B-9
Stainless steel acrylic baffle infusion table

Made of all 304 stainless steel, the frame 25*25 square tube thickness 1.2mm is equipped with active mesh and active contamination plate, the railings can be easily put down, both sides are equipped with active toughened glass.

Large: 1100*600*850mm / small: 900*500*850mm

B-10
Multi function infusion, severe and simple operation cart

All 304 stainless steel is made, the thickness of the table is 1.2mm, the thickness of the 22*22 square tube of the column is 1.2mm. It is convenient to use the active infusion frame, the movable net piece and the movable rail, and the brake wheel or the adjusting foot can be selected.

Size: 1370*600*780mm

B-11
Stainless steel active rail infusion table

All 304 stainless steel is made. the thickness of the table is 1.2mm, the thickness of the 22*22 square tube of the column is 1.2mm. It is equipped with an active infusion frame, and the movable railing is convenient to use, and the brake wheel or the adjusting foot can be selected.

Trumpet: L900*mm*W550mm*H780mm / Large: L1100mm*W600mm*H780mm

Reasonable structure can also be used for transporting stations and diagnostic stations.

B-12
Stainless steel animal dissection station

All stainless steel 304 material, table concave design, equipped with stainless steel flush pool and double flush cage easy to use, in order to ensure brightness demand, with high brightness lamps, one equipped with active pallets, convenient to put surgical instruments, practical.

Large: L1600mm*W650mm*H800mm, Trumpet: L1100mm*W550 mm*H800mm

B-13
Stainless steel simple auxiliary table

Pet hospital special auxiliary desk is simple, convenient and easy to use.

Size: L650mm*W430mm*H800mm

PI-2

Pet incubator

Improved humidification system, The new heavy duty ultrasound humidifier ensures an ultra high humidification performance, now the humidity could be increased to 85RH (28°C).

ICU Illumination Function, setting of security mechanism

PI-1

Pet incubator

Double decker design, well for two units, specialized top shelf for air conditioner or oxygen generator locating, ICU accessories organizing

Specialized top shelf for air conditioner or oxygen generator locating.

Stable and Sturdy, made from Gauge 17 steel panel, ensures long service life.

Comes standard with casters, for easy moving and sterilization operation.

PI-4

Aerobic full functional animal medical monitoring pod

This machine is suitable for body temperature resuscitation, infusion, oxygen delivery, blue light atomization treatment, rescue, hospital observation, etc. of sick, critically ill and sick animals. It can also be used as aseptic and constant temperature culture of young pets.

Parameters:

Overall dimension	Length 1160 / depth 600 height 1680mm	Display	8.4 W171XH128mm
Power supply	AC100V/220V 50/60HZ (with ground)	Blackout guarantee	Emergency ventilation hatch with program control
Conditions of use	-10~40°C (indoor)	Touch screen	Pointer film resistance type
Set temperature	15~38°C, temperature control accuracy ± 0.5°C	Microprinter	Intelligent automatic timing printing system
Set oxygen concentration	21~60% control accuracy ± 1%	Blue light medical system	Blue Light 415nm LED
Alert • Warning	02 Abnormal concentration abnormal temperature, abnormal sensor, abnormal door switch, abnormal CO2 concentration emergency hatch switch	LED lighting panel	There are two ways of light control: ten levels of warm light adjustable strength control, special cold light for medical examination

PI-3

Pet incubator

Perfect match for the KaniStar ICU. Gives the lCU the ability to set the desired stable tempertature for the patient by producing chilled airflow.

Remotely controlled by the ICU. Amazingly quiet without startling pets.

Package: carton Package: 30*50*60 cm & 70*70*20 cm, GW: 24 KG.

Volatile tank with TEC3 selected.

MT-VET12H

Animal monitor

Electrical specifications: 110-250V/AC, 50/60Hz, display mode: TFT, applicable rings: cats, dogs, pigs, horses.

High-precision discrete parameter module for animals: ECG, blood oxygen and bloodpressure module; 12.1-inch color LCD display, high resolution 800x600 Dpi.

Standard parameters: ECG, blood oxvgen, blood pressure, respiration rate, body temperature. 1 heart rate, optional: built-in thermal recorder, touch screen, ETC02.2-IBP. USA SUNTECH Blood I pressure module, monitor wall bracket, monitor trolley, animal connection accessories: ecg dable,l blood oxygen probe, blood pressure cuff, body temperature probe

12 inch inner box: 36*20*40CM G.W: 5.5kg, 12 inch box (2 boxes): 45*38*43CM G.W: 11.7kg

MT-VM12C

Animal monitor

Standard configuration: ecg, heart rate, respiration, blood oxygen, blood pressure, temperature, independent modules, built-in lithium battery: 2000mAH, LCD display size: 12 inches

Optional: external mainstream or side current ETC02, single or dual channel IBP, touch screen, wall rack, built-in recorder

Packing size: 380*350*300mm, gw 6kg

MT-VE15

Animal monitor

Standard configuration: ecg, heart rate, respiration, blood oxygen, blood pressure, temperature, independent module, touch screen, built-in lithium battery: 2000mAH, LCD display size: 15 inches

Optional: external main or side current ETC02, single or double channel IBP, wall rack, built-in recorder

Package: 420*380*285mm, GW 7.3kg

MT-HD12VET

Top Veterinary Patient Monitor

13.3 inch color LCD, full view displav, high resolution 1366X768 dpi: Standard parameters: ECG, Sp02, NIBP, RESP, Tem-perature, Heart Rate; 10 levels adjustment for the brightness of screen: Double over-pressure protection from NIBP software and hardware to ensure patient safety: Support central monitoring system access to the HL / protocol: Optional for built-in thermal matrix recorder. three trace waveform: IReserved ETC02 interface to support plugand- play CO2 module

Package: 40*28*35cm, 5.8kg

MT-DE12-VET

High-end veterinary electrocardiogram

Accurate ECG automatic diagnosis function; 10.2 inch high definition and wide-angle color LCD screen, capacitive touch control, 12-lead display; six ECG record combination modes; eight ECG display comoination modes: single line, 3 channels, (3+R) channel, (+l+VS) channel, single line 6 channels, double line 6 channels, single line 12 channels, double line 12 channels; with RS232 communication interface, USB interface and LAN network interface; support languages: CHN, ENG, RUS, FREN, GER, PORTU, SPAN

Package: 40*35*20cm, GW 7kg

MT300G-VET

High-end veterinary electrocardiogram

Display of 3/6/12-lead ECG, print mode, sensitivity, paper speed and filter state, etc. on one screen, convenient for contrastively diagnosing. Multiply printing modes and formats, including manual, auto 4x3, auto 3x4+1, auto 3x4, auto 2x6+1, auto 2x6, auto 3-2+1, auto 3-2, auto lxl2+1, auto 1x12, rhytam 4, rhythm 3, rhythm 2, etc. Waveform length printed can be adjusted, and with timed print function

Multi- language (Chinese, English, Spanish, Turkish, Polish, Italian, French, German, Portuguese, Russian, Ukrainian, Serbian, Vietnamese, Slovenian, Slovak, Bulgarian and Nigerian language) interface and report.

Package: 405*300*195mm GW: 3.1kg

MT-TDL-30B

Low speed centrifuge

Maximum speed: 4000r/min, maximum capacity: 50ml x 6 pieces, size: 43x33x31cm, nw: 22kg

The main engine cannot work independently, so the horizontal rotor and adapter must be selected

MT-TGL-12MX

High speed centrifuge

Maximum speed: 16500r/min, maximum capacity: 5ml x 12 pieces, size: 38x28x30cm, nw: 15kg

The main engine cannot work independently, so the horizontal rotor and adapter must be selected

MT-TDL-200

Low speed centrifuge

Maximum speed: 4500r/min, maximum capacity: 10ml x 12 pieces, size: 40x28x23cm, gw 12kg

The main engine cannot work independently, so the horizontal rotor and adapter must be selected

MT-X707 400

Mini Centrifuge

The centrifuge has perfect appearance and performance. It has small size, light weight and is widely used. It is running smoothly, easy to operate and use. Motor with ball bearings, German imports brush and commutator. Life of the centrifuge is more than 800 hours. The instrument is mainly applicable to 2ml, 1.5ml, 0.5ml, 0.2ml centrifuge tubes and 0.2mlx8 strips centrifuge tube.

Power: 30w, speed: 4000r/min, size:19*19*12.5cm

ZY-5AW

Oxygen Concentrator

Oxygen flow: can be adjusted (1L-5L), capacity: 400VA, oxygen purity: 93%±3% (0.5L-5L), power: 220/110V, 10 inches LED screen

Size: 305X308X680mm, nw 20kg, packing size: 0.13m³, gw 23.9kg

ZY-10zW

Oxygen Concentrator

oxygen flow: can be adjusted, capacity: 550VA, oxygen purity: 93%±3% (0.5L-10L), power: 220/110V

Size: (1L-10L) 364*385*731mm, nw 29kg, packing size: 0.18m³, gw 32kg

12B-I/18B-I/23B-I

Tabletop Autoclaves

Based on EN13060 standard, open-type water tank design, easy to clean LCD display all the details of cycle, high density filter, fully automatic high quality vacuum pump build-in steam generator, over temperature and over pressure protect achieved program customization, 20 minutes fast sterilization cycle, optional printer and color with B&D test and Vacuum test, advanced self-test system

Packing size: 65*52*52mm, N.W/G.W: 45/49 KG (12L)
65*52*52mm, N.W/G.W: 48/50 KG (18L)
78*52*52mm, N.W/G.W: 50/55 KG (23L)

12B-II/18B-II/23B-II

Tabletop Autoclaves

Based on EN13060 standard, open-type water tank design, easy to clean LED simply display, high density filter, fully aotumatic high quality vacuum pump, build-in steam generator optional printerover temperature and over pressure protect, 20 minutes fast sterilization cycle color; blue & purple & orange, With B&D test and vacuum test, advanced self-test system

Packing size: 65*52*52 mm, N.W/G.W: 45/49 KG (12L)
65*52*52 mm, N.W/G.W: 48/50 KG (18L)
78*52*52 mm, N.W/G.W: 50/55 KG (23L)

YX-280B (18L/24L/30L)

Electric Coal and Gas Heating Portable Autoclave

High Quality SUS304 stainless steel material ,electric, coal and gas heating, silicone seal dual scale indicate pressure gauge, double safety valve to ensure safe

Chamber size: φP300*330mm / φP300*460mm / φP300*520mm.

Packing size: 40*40*42cm / 40*40*55cm / 40*40*64cm,
G.W/N.W.15kg/14kg 17kg/15kg 18kg/16kg

Power: AC220V / 50Hz / 2.0KW

YX-280D (18L/24L/30L)

Portable Steam Sterilizer

High quality SUS304 stainless steel material electric heating system silicone seal to ensure no steam exhaust dual scale indicate pressure gauge, high pressure faucet drainage water sterilization time and temperature can be set. over-temperature protection, over-pressure protection water shortage protection

Chamber size: φP300*330mm / φP300*460mm / φP300*520mm.

Packing size: 40*40*53cm / 40*40*64cm / 40*40*70cm,
G.W/N.W:18kg/16kg 19kg/17kg 20kg/18kg

Power: AC220V / 50Hz / 2.0KW

YX-280DIGITAL (18L/24L/30L)

Portable Steam Sterilizer

High Quality SUS304 stainless steel material ,Electric heating system, Silicone seal Dual scale indicate pressure gauge, Double safety valve to ensure safe LED digital display screen, Microcomputer control system, High pressure faucet drainage water Over-temperature protection, Over-pressure protection, Water shortage protection

Chamber size: φP300*330mm / φP300*460mm / φP300*520mm.

Packing size: 40*40*53cm / 40*40*64cm / 40*40*70cm,
G.W/N.W: 17kg/15kg 18kg/16.5kg 19kg/17kg

Power: AC220V / 50Hz / 2.0KW

LX-B(35L-150L)

High Pressure Vertical Steam Sterilizer

High quality SUS304 stainless steel material, dual scale indicate pressure gauge silicone seal to ensure no steam exhaust, light indicate working status temperature, time of sterilization can be set, water shortage auto-protection over pressure auto-discharging, over current protection over temperature protection drying function can be add (best large than 75L).

Chamber size: φP300*485mm, packing size: 58*58*97cm,
G.W/N.W: 52kg / 37kg AC220V / 50Hz / 2.5KW (35L)

Optional digital display / volume

HAGURIM SHEL EYAL

GU-P 209
Dental Machine

With 1pc 3-way syring; with 2 pcs handpiece tubing (2-hole/4-hole); with saliva ejector; with LED curing light, with ultrasonic scaler (detachable handpiece 5 pcs tips as free); self-contained air compressor (silent, oil free 600W, stainless steel tank, 4L), clean water supply (600ml), drainage system (1000ml), foot control, etc.

Size: 440*350*720mm, nw 35kg
packing size: 540*450*940mm, gw 47kg

Light curing and magnetic inspection are extra

GU-P 211
Dental Machine

With 1pc 3-way syringe; With 2pcs handpiece tubing (2-hole / 4-hole) With saliva ejector; contained air compressor silent, oil free, 600W, stainless steel tank, 4L), clean water supply (600ml), drainage system (1000ml), foot control, etc

Size: 670*580*860mm, nw 65kg

packing size: 760*670*1040mm, gw 87kg

Light curing and magnetic inspection are extra

GU-P 212
Dental Machine

With 1pc 3-way syringe; With 2pcs handpiece tubing (2-hole / 4-hole); With saliva ejector; With LED curing light; With ultrasonic scaler (detachble handpiece, 5pcs tips as free); Self-contained air compressor (silent, oil free, 600W, stainless steel tank, 4L), clean water supply (600ml), drainage system (1000ml), foot control, etc.

Size: 670*580*860mm, nw 66kg

packing size: 760*670*1040mm, gw 88kg

Light curing and magnetic inspection are extra

GU-P 301
Dental Machine

With 1pc 3-way syringe: With 2pcs handpiece tubing (2-hole / 4-hole): With saliva ejector Clean water supply (600ml), drainage system (1000ml), foot control, etc. No compressor

Size: 470*400*790mm, nw 12kg
packing size: 560*530*590mm, gw 17kg

Light curing are extra

GU-P 302
Dental Machine

With 1pc 3-way syringe; With 2 pcs handpiece tubing (2-hole / 4-hole); With saliva ejector. With LED curing light; With ultrasonic scaler (detachble handpiece, 5pcs tips as free); Clean water supply (600ml), drainage system (1000ml), foot control, ets No compressor

Size: 470*400*790mm, nw 13.5kg
packing size: 560*530*590mm, gw 18.5kg

Light curing are extra

GU-P 302S
Dental Machine

With 1pc 3-way syringe: with 2 pcs handpiece tubing (2-hole / 4-hole): With high volume suction. With LED curing light, With ultrasonic scaler (detachble handpiece, 5 pcs tips as free); With built-in lift to control height, and instrument holder is rotatable. With storage space for foot control; Clean water supply (600ml), drainage system (1000ml), foot control, etc. No compressor

Size: 500*600*800mm, nw 21kg,
packing size: 640*540*720, gw 36kg

Light curing are extra

MT-820

Animal Oximeter

Size: 97*61*161, gw 270g

AM1000A

Animal Hand held Pulse Oximeter (Bluetooth BLE)

Data can record by software and export via bluetooth, email, Skype ect. Lower consumption, original two AA batteries can continuously work for 24 hours. Low voltage reminder shows in screen wnen there's low battery, may influence the normal working. App can free download from google play and app store The machine will automatically power off when there's no single generated.

Packing size: 22*17*6cm, NW 115G, GW 477G

AM6100

Blood Oxygen and Blood Perssure Integrated Machine

Free APP named "Berry Monitor", dual mode bluetooth, built-in battery high-quality TFT screen, can connect PC and smart phone thru bluetooth. multi-parameter: blood pressure, Tempreture, pulse rate, Spo2, ECG,resp. with the whole set of accessoriess: Spo2 sensor, ECG cable, NIBP Cuff, NIBP Tube, tempreture probe, power source Line and carrying case, ECG 1 channels, 3 leads.

Packing: 24*16*10cm, NW 257g, GW 1088g

MT-P8VET

High-end portable veterinary color doppler

15 inch LED display, windows operation platform (Win8), two probe connectors, professional animal measurement software, element: 1286, PW, CW, 4D, THI, PDI trapezoid imaging, automatic pulse tracing, support OB report print

Application: applicable for animals' examination and diagnosis on digestive system, reproductive system, urinary system for animal hospitals and scientific institutions.

Packing size: 76.5*50.5*64.5cm, gw 26kg

MT-T8VET

High-end trolley veterinary color doppler

21.3 inch LED display + 13.3 inch touscreen, windows operation platform (Win8) four probe connectors, professiona animal measurement software, element: 128, PW, CW, 4D, PDI, THI7. trapezoid imaging, automatic pulse tracing8. support OB report print, CD driver

Application: for bovine, oyine, equine, canine, feline and other domestic animals, animals for experiments, wildlife, and some aquatic animals. It is applicable for the inspection of various animals' clinical abdomen, thoracic cavity, heart, tendon, small organs, eyes, reproduction system, etc.

Probe types: phased array probe, convex probe, linear array probe, veterinary trans-rectal probe, veterinary micro-convex probe

Packing size: 102*72*153cm, gw 130kg

MT15

Basic trolley BW veterinary ultrasound scanner

15 inch LCD display, professional animal measurement software, stable operation platform three probe connectors, element: 80, support OB report overview

System Language: Chinese, English, Spanish, French, Portuguese and Russian.

Packing size: 85*65*99cm, gw 38.5kg

HAGURIM SHEL EYAL
medical equipment

MT-S0

Basic hand held BW veterinary ultrasound scanner (for small animals only)

5.6 inch LED display. built-in rechargeable battery. professional animal measurement software stabfe operation platform,single probe connector6. flement: 80, offer suitcase for package system Language: Chinese, English

Applications: detect pregnancy, estimate fetal quantities. diagnose disease. fetal vitality evaluation, fetal heart beats, sheep, pig, cat and dog pregnancy diagnosis (integration of four common animal gestational age measurement data)

Frequencies of probes: 2.5Mhz / 3.0Mhz / 3.5Mhz / 5.0Mhz

Packing size: 52.5*17*37cm, gw 4.5kg

MT-S1

Higher end hand held BW veterinary ultrasound scanner for big & small animals both

5.6 inch LED display, built-in rechargeable battery, professional animal measurement software stable operation platform, single probe connector 6. Element: 80, offer suitcase for package system. Language: Chinese, English

Probe (Optional): 7.5 MHz high-frequency linear array probe, 6.5 MHz rectal probe 7.5 MHz back fat probe, 5.0 MHz micro convex probe

Packing size: 52.5*17*37cm, gw 4.5kg

MT-MU10

Basic Laptop BW veterinary ultrasound scanner

12.1 inch LCD display, built-in rechargeable battery, professional animal measurement software stable operation platform, single probe connector, can work with probe extender, Element: 80 support OB report overview, offer suitcase for package, system Language: Chinese, English, Spanish, French, Portuguese and Russian.

Convex 3.5M HZ: 2.0 M Hz.2.5 M Hz.3.5 M Hz.4.0 M Hz.5.0 MHz; microconvex 6.5 MHz: 5.0M Hz, 5.5M Hz, 6.5M Hz, 7.0M Hz, 7.5M Hz; linear/rectal 7.5 MHz: 5.5 MHz, 6.5 MHz 7.0 MHz:7.5 MHz. 9.0 MHz, docking station (option)

Packing size: 47*22*40 cm, gw 9.5kg

MT-MU15

PC platform full digital vet black and white ultrasonic diagnosis system

Pulsed wave doppler (PW), THI technology, super speckle noise, brighten image and improve the lmage quality, 2 levels harmonic wave, with independent buttons, invisable and adjustable cyclically, connect the hospital system and realize real-time data sending and receiving equipped with Ultra ISO, system recovering USB flash disk, take full backup at urgent moment

Probe (optional): convex probe, linear probe, veterinary back fat probe,micro-convex probe, veterinary trans-rectal probe

Packing size: 47*22*40 cm, gw 9.5kg

MT-L3VET

Basic Laptop Veterinary Color Doppler

15 inch LED display, windows operation platform (Win 7), single probe connector professional animal measurement software, element: 96, offer suitcase for package PW, 4D, support OB report print

System Language: Chinese, English, Spanish, French, Russian, Arabic, Vietnamese, Portuguese, Indonesian, German, Persian and Thai

Packing size: 60*50*27 cm, gw 15kg

MT-DWP60

High-end portable veterinary color doppler

15 inch LED display, windows operation platform (Win 8), two probe connectors professional animal measurement software, element: 128, PW, CW, 4D, THI, PDI, trapezoid imaging, automatic pulse tracing, support OB report print

Application: applicable for animals examination and diagnosis on digestive system, reproductive system, urinary system for animal hospitals and scientific institutions.

System language: chinese, english

Packing size: 76.5*50.5*64.5cm, gw 26kg

MT-GW605

Portable HD endoscope camera

Application: be used for arthroscopy, ENT, PTED (percutaneous transforaminal endoscopic discectomy), cystoscope, percutaneous nephroscope, yentriculoscope, ductoscope, hysteroscopy, proctoscope, sigmoidoscope, urology resectoscope, plastic surgery endoscope, faparoscope, ductoscopy, breast implant endoscope, thoracoscopy, fiber nasopharyngoscope, fiber choledochoscopy, fiber bronchoscope, fiber ureteroscope, APP hernia repair, lacrimal passage, minimally invasive varicose veins, etc.

4 in 1, camera 1000 lines+ LED light source + monitor + HD recorder. Intelligent digital full HD effective pixels: 1920(H) 1080(V). medical grade HD monitor, 17 inch. Light source is customized connector, it accepts fiber light guides with active areas ranging from 3 mm to 10 mm diameter.

Packing size: 66*58*24cm, 0.092m³, gw 15.3kg, nw 11.6kg

MT-GW612

HD Portable camera

4 in 1, camera + LED light source + monitor + HD recorder. high brightness 80 watts LED. medical grade HD monitor, 17 inch. With suitcase, easy to carry. suitable for diagnosis and surgery. application: Laparoscopy, gynecology, urology, ENT, orthopedics, etc.

LCD screen: 17, external U flash disk: MAX 64G

Packing size: 66*58*24cm, 0.092m³, gw 15.3kg, nw 11.6kg

MT-HD7021

Portable HD endoscope USB camera

Application: be used for arthroscopy, ENT, PTED (percutaneous transforaminal endoscopic discectomy), cystoscope, percutaneous nephroscope, ventriculoscope, ductoscope, hysteroscopy, proctoscope, sigmoidoscope, urology resectoscope, plastic surgery endoscope, laparoscope, ductoscopy, breast implant endoscope, thoracoscopy, fiber nasopharyngoscope, fiber choledoschoscopy, fiber bronchoscope, fiber ureteroscope, APP hernia repair, lacrimal passage, minimally invasive varicose veins, etc.

Standard 1100 lines effective pixels is 1920(H) * l080(P) multi output: USB, SDI can connect to medical monitor, laptop and TV, fxtinction speed is less than 0.1s

Packing size: 41*29*16cm, 0.019m³, gw 3.5kg, nw 1.45kg

MT-GW702C

Portable endoscope USB camera

Application:can be used for arthroscopy, ENT, cystoscope, hysteroscopy, etc.

Portable usb camera system, for different surgery. It can be connected to laptop, medical monitor and TV. Complete usb camera set including usb camera system, optical coupler, BNC line, AV adapter, power line and suitcase. Very convenient for doctors to visit a patient at home.

Standard 700 lines, effective pixels is 795(H) * 596(V). extinction speed is less than 0.2s.

Packing size: 40*29*12cm, 0.014m³, gw 2.1kg, nw 1kg

MT-GW603

Portable FHD endoscope camera

Used for arthroscopy, ENT, PTED (percutaneous transforaminal endoscopic discectomy), cystoscope, percutaneous nephroscope, ventriculoscope, ductoscope, hysteroscopy, proctoscope, sigmoidoscope, urology resectoscope, plastic surgery endoscope, laparoscope ductoscopy, breast implant endoscope, thoracoscopy, fiber nasopharyngoscope, fiber choledochoscopy, fiber bronchoscope, fiber ureteroscope, APP hernia repair, lacrimal passage, minimally invasive varicose veins, etc.

4 in 1 camera 1000 lines + LED light source + monitor + HD recorder. intelligent digital full HD effective pixels: 1920(H) * l080(V), medical grade HD monitor, 21 inch.

Packing size: 78*57*22cm, 0.098m³, gw 17.3kg, nw 15.7kg

MT-GW611

Portable endoscope camera

Can be used for arthroscopy, ENT, PTED (percutaneous transforaminal endoscopic discectomy), cystoscope, percutaneous nephroscope, ventriculoscope, ductoscope, hysteroscopy, proctoscopel sigmoidoscope, urology resectoscope, plastic surgery endoscope, laparoscope, ductoscopy, breast implant endoscope thoracoscopy, fiber nasopharyngoscope, fiber choledochoscopy, fiber bronchoscope, fiber ureteroscope, APP hernia repair, lacrimal passage,minimally invasive varicose veins, etc.

4 in 1, camera 700 lines + LED light source + monitor + HD recorder, medical grade HD monitor, 17 inch.

Packing size: 60*58*27cm, 0.094m³, gw 13.1kg, nw 11.6

MT-830
Veterinary Hematology Analyzer

Automatic three classification blood cell analyzer ,detection objects: pigs, cats, dogs, rats, mice, sheep, cattle, norses, chickens and monkeys

Measurement principle: RBC and WBC dual channel cell technology, electrical impedance method, HGB colorimetry, the machine can be adjusted to English

Size: 330x420x400mm, Packing size: 530mm*490mm*600mm, gw 16kg.

MT-6000K
Veterinary Hematology Analyzer

Working principle: fluoresoenoe method, clinical function: three categories 16 or 18 items, three histograms, specimen dosage: 20-40 micro liters of peripheral blood, detection speed: >60 samples/hour, result storage: 1000 copies report printing: built-in 57mm thermal printer or external printer (optional)

Packing size: 605*550*510mm, gw 9.8kg

MT-300
Urine Analyzer

14 test contents, 7-inch large screen display, touch operation, 514 persons / hour, built in high-speed thermal printer, work environment: 15-35°C, humidity< 85%, power: 20VA

MT-200
Urine Analyzer

11 or 14 test items, 60-120 persons / hour, thermal printing / LCD display, detection wavelength: 525nm-660nm, working environment: 15°C-35°C, humidity s 85%, power: 50VA

LCD: 240*64 dot matrix, 37mm*130mm, size: 3500mm*285mm*140mm

MT-XR210
Automatic Biochemical Analyzer

Operation language: chinese and english, 100-240V, 50Hz/60Hz. power: 550VA

Light source tungsten halogen lamp, 12V, service life >2000 hours, can automatically detect the light intensity wavelength: 340nm - 630nm, with 6 standard wavelengths, which can be expanded and optional.

Size: 566mm x 559mm x 601mm, nw 70kg

MT-XR210
Convective Patient Warming System

Six-grades of temperature output with high-accuracy optional temperature setting .Pre-heating time only takes 15-20s (temperature set on 46°C for rapidly heated, then lower to 43°C automatically after 10 minutes)

Machine with hanger to be fixed on the cart stand nfusion support and hospital bed fence.

Temperature output Ambient, 34°C, 37°C, 40°C, 43°C, 46°C (±2°C) Dimensions 29cm X 22cm X 40cm Weight 6.75KG

OP1S

Ophthalmoscope

Simple handle, 5 different apertures

19 kinds of adjustable corrective lenses, Range of lenses: -20d~+20d

4000k color temperature LED bulb and XHL Xenon Halogen bulb to optional

The clip with integrated on/off switch

Box size (mm): 193x102x32, Carton size (mm) 400x215x195

Pcs/Ctn: 20, Kgs/Ctn: 4.0/3.6

OT1G

Otoscope

Direct illumination, 3X magnification for the viewing window

2.4mm/3mm/4mm/5mm ear tips of two groups

3200k and 6000k color temperature LED bulb and XHL Xenon Halogen bulb to optional

Standard handle, handy and convenient

The clip with integrated on/off switch

Box size (mm) 190x110x40, Carton size (mm) 400x240x230

Pcs/Ctn: 20 Kgs/Ctn: 6.8/6.3

OTP1B

Ophthalmoscope and otoscope set

A fiber optic otoscope (OT1O)

A direct ophthalmoscope (OP1O)

2.4mm/3mm/4mm/5mm tips tow groups

Soft nylon bag

NPM500

Multifunctional drill saw system (Hollow drill assembly)

Clamping range: 0.8-8mm

Rotational speed / swing frequency: 0-650rpm

NPM600

Multifunctional drill saw system

Canulated drill attachment: Clamping range 0.8-8mm
Rotational speed / swing frequency 0-650rpm (Hollow drill assembly)

Bone drill attachment: Clamping range 0.8-8mm
Rotational speed / swing frequency 0-950 rpm

Bone drill attachment: Clamping range 0.8-8mm
Rotational speed / swing frequency 0-950 rpm

Veterinary Automatic Air Warming System

Product Introduction
Consists of a five-range temperature management module, an internal cleaning and disinfection module, a hot air purification module.

Veterinary Automatic Air Warming System for Veterinary Automatic Air Warming System is mainly used to prevent and treat hypothermia. In addition, if the environment conditions may cause drop in the body temperature of the sick pet, Veterinary Automatic Air Warming System can be used to provide a comfortable temperature for the sick pet. Veterinary Automatic Air Warming System is suitable for both adult pets and young pets.

Warming Air Cushion
The air cushion which adopts honeycomb mesh double layer structure is soft and durable and fits the body, and can facilitate uniform air laminar flow and rapid temperature transmission.

The product can provide accurate temperature control during a long surgery of the sick pet to maintain a constant body temperature of the pet.

The warming air cushion will provide a dry and warm environment for the sick pet during its treatment by infusion and hospitalization to reduce and alleviate cold and wet stimulation of the skin caused by limited activity and significantly reduce the probability of occurrence of eczema, bed sores (pressure ulcers), which will greatly help its rehabilitation.

Specifications
Temperature control system: Temperature: 5°C-28°C, Humidity: Maximum relative, Minimum relative humidity 35%, Altitude: Maximum 3200 m, Temperature control accuracy: ±0.1°C

Overheat alarm: If the temperature is too high and more than 44.9°C, the yellow overheat indicator light will be on and the alarm sound.

Filtering system: Three-layer air purification and filtering, Efficient 0.2umHEPA air filter screen, 254nm UV efficient sterilization lamp, In the case of negative ion DC 5V, ≥ 1.1×10^{4}PCS/cm^3 ±10%
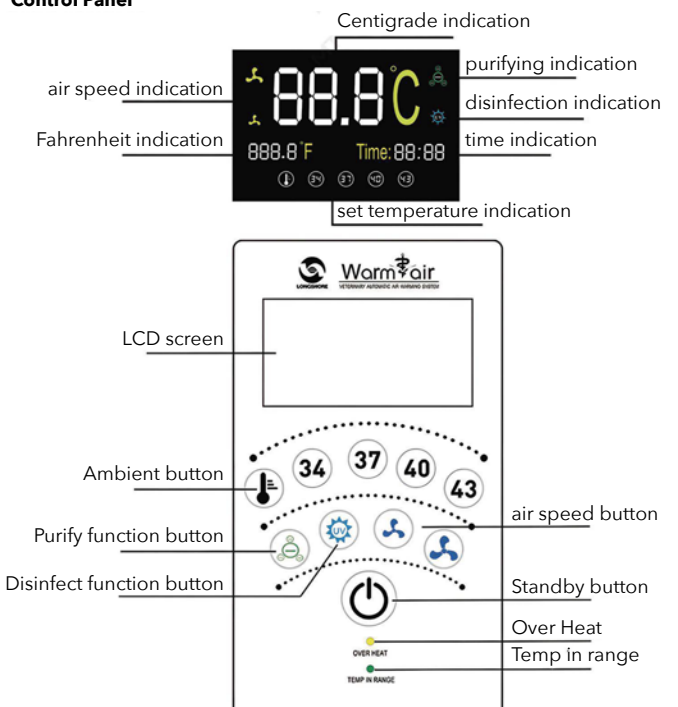

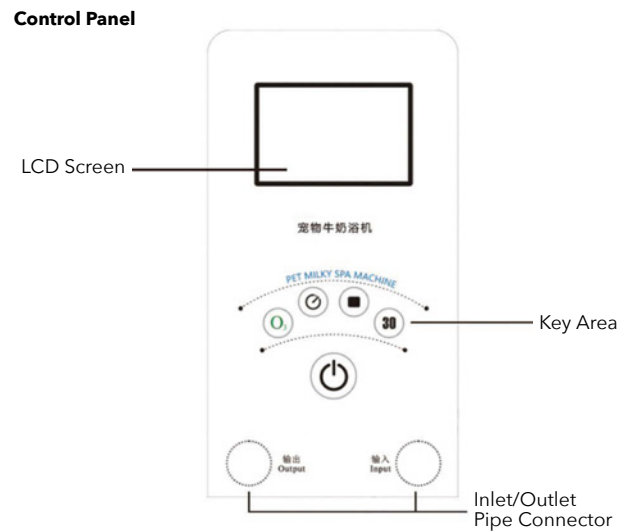

Filtering system: Three-layer air purification and filtering, Efficient 0.2umHEPA air filter screen, 254nm UV efficient sterilization lamp, In the case of negative ion DC 5V, ≥ 1.1×10^{4}PCS/cm^3 ±10%

Parameters

Heating PTC	700W resistance	Leakage current	Meet the requirements of IEC60601 standard
Fan speed	110V/3540RPM 220V/945RPM	Fan Air volume	>0.05/3345 CMM/RPM
Fan power	45W	Fan noise	49dBA (high speed) 43dBA (low speed)
Fan Static pressure	110V/26mmAq 220V/18mmAq	Equipment grade	110-120VAC/50/60Hz/11A 220-240VAC/50/60Hz/7.2A
Fuse	10A	Ampere rating	12A (110-120VAC) 8A (220-240VAC)
Operating speed	F (fast)	Breaking capacity	15A,12A:10000A (125VAC) 8A:200A (250VAC)
Package size	47cm(L) x 36.2cm(W) x 46cm(H)	Gross weight	9.6kg
Dimensions	30cm(L) x 22cm(W) x 35cm(H)	Net weight	5.5kg
Hose material	Food grade, PU	Hose length	1.4m

MS150

Pet Milky SPA Machine

Product Overview

MS150 Pet Milky SPA Machine is a advanced equipment that by means of high-tech technology, let the ordinary water transform into a milky white water with nano bubble high oxygen. nano bubble milky SPA machine working principle is using molecular collisions principle, resulting in a large number of nano scale and negative ions, accelerating oxygen dissolution, reducing the composition of chlorine in water. Negative ion, high oxygen nano microbubbles can quickly penetrate into deep skin high, remove dirt, bacteria and other systemic, deep cleansing.

Main Features

Oxygen ion sterilization: Pet Milky SPA Machine built-in oxygen ion (03) generating system, oxygen ion has strong oxidation reduction, is broad spectrum, efficient, fast, safe, no two pollution sterilization gas
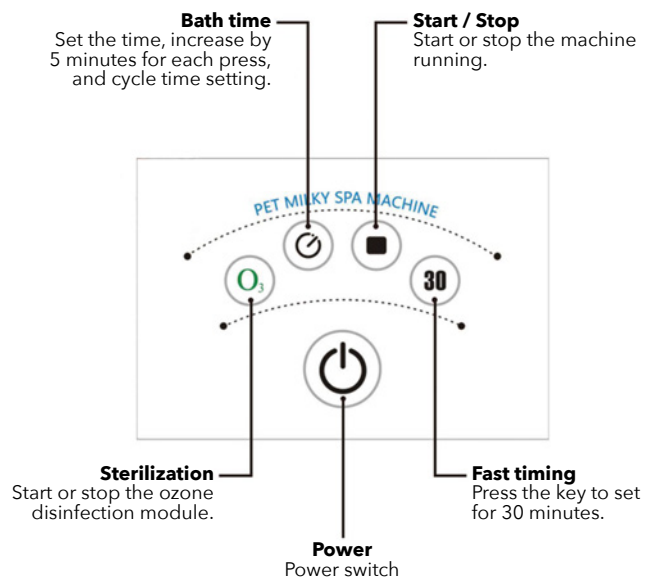

Negative ions enhance immunity: Machine is working, it can produce a large number of negative ions on the water surface, negative ions, also known as the air in the vitamin, which is the best nature of human health care products.

Deep cleansing and removing grease

Strong chlorine removal

Technical Parameter

Supply Voltage: AC100-240V~50/60Hz
Rated Power: 150W
Effluent Rate: 5.0LPM
Water Pressure: 0.25MPa~0.60MPa
Liquid Temperature: 0°C-60°C
Gross Weight: 12Kg
Package Size: 46cm(L) X 36cm(W) X 41.5cm(H)

Bath time
Set the time, increase by 5 minutes for each press, and cycle time setting.

Start / Stop
Start or stop the machine running.

PET MILKY SPA MACHINE

Sterilization
Start or stop the ozone disinfection module.

Fast timing
Press the key to set for 30 minutes.

Power
Power switch

PB-4

Pet blower

Wind speed: 38m/s-48m/s, temperature: 40-65, noise: 40bd, voltage: 220V (can do 110v), power: 2500w

Size: 115*360cm. packing size: 32*19*19cm, NW 2kg / GW 2.5kg

PB-5

Pet blower

Wind speed: 38m/s-48m/s, voltage: 220V (can do 110v). power: 2800W

Size: ϕ160*370mm, packing size: 47*47*47cm, inside the box size: 47*23*23cm, NW 5.5kg / GW 6kg

Color: yellow, blue, black

PB-6

Pet blower

Wind speed: 38m/s-48m/s, voltage: 220V (can do 110v), power: 2800w

Size: ϕ160*370mm, packing size: 47*47*47cm, inside the box size: 47*23*23cm, NW 5.5kg / GW 6kg

PB-7

Pet blower

Wind speed: 38m/s-48m/s, voltage: 220V (can do 110v), power: 2800w

Size: ϕ160*370mm, packing size: 47*47*47cm, a case of 4 units, inside the box size: 47*23*23cm NW: 5.5kg / GW: 6kg

PB-8

Pet blower

Wind speed: 48m/s-60m/s, temperature: 40-65°C, noise: 60db, voltage: 220V (can do 110 v) power: 3000w

Size: ϕ160*370mm, packing size: 47*47*47cm, a case of 4 units, inside the box size: 47*23*23cm, NW: 5.5kg / GW: 6kg

PB-9

Pet blower

Wind speed: 38m/s-60m/s, temperature: 40-60°C, noise: 60db, voltage: 220V (can do 110v) power: 2800w

Size: 360*370mm. packing size: 47*47*47cm, a case of 4 units, inside the box size: 45*23*23cm

PB-10

Pet blower

Wind speed: 38m/s-60m/s, temperature: 40-60°C, noise: 60db, voltage: 220V (can do 110v) power: 2800w

Size: φ160*370mm, packing size: 47*47*47cm, a case of 4 units, inside the box size: 45*23*23cm, NW: 5.5kg / GW: 6kg

PB-11

Pet LCD screen blower

Wind speed: 38m/s--60m/s, temperature: 40-60°C, noise: 60db, voltage: 220V (can do 110v) power: 2800w

NW: 5.5kg / GW: 6kg

PB-12

Pet blower

Wind speed: 38m/s--60m/s, temperature: 40-60°C, noise: 60db, voltage: 220V (can do 110v) power: 2800w

Size: φ160*370mm, packing size: 47*47*47cm, a case of 4 units, inside the box size: 45*23*23cm, NW: 5.5kg / GW: 6kg

PB-16

Pet blower

Wind speed: 38m/s-60m/s, temperature: 40-60°C, noise: 60db, voltage: 220V (can do 110v) power: 2800w

Size: φ160*370mm, packing size: 47*47*47cm, a case of 4 units, inside the box size: 45*23*23cm, NW: 5.5kg / GW: 6kg

PB-15

Pet arm type hair-pulling machine

Wind speed: 38m/s-60m/s, temperature: 40-60°C, noise: 60db, voltage: 220V (can do 110v) power: 2800w

Size: φ160*370mm, packing size: 47*47*47cm, a case of 4 units, inside the box size: 45*23*23cm NW: 5.5kg / GW: 6kg

PB-17

Pet LED arm type hair-pulling machine

Wind speed: 38m/s-60m/s, temperature: 40-60°C, noise: 60db, voltage: 220V (can do 110v) power: 2800w

Size: φ160*370mm, packing size: 47*47*47cm, a case of 4 units, inside the box size: 45*23*23cm NW: 5.5kg / GW: 6kg

PB-18

Pet blower

Wind speed: 40m/s--60m/s, temperature: 40-60°C, noise: 60db, voltage: 220V (can do 110v). Power: 2800w

Size: φ160*370mm, packing size: 52*11*72cm (holder) /47*47*47 cm, a case of 4 units. NW: 5.5kg / GW: 6kg (rack), NW 5.65kg / GW 6.65kg (holder)
